Retraction notice

Some Problems Connected with Diametrically Contractive Maps and Fixed Point Theory
With Python Programming Language
by S. M. Khairnar and M. More

This article has been retracted at the request of the Editors-in-Chief.

Reason: The author has plagiarized part of a paper that had already appeared in the [M. Baronti, E. Casini, and P.L. Papini, Diametrically contractive maps and fixed point. Fixed Point Theory and Applications Volume 2006, Article ID 79075, Pages 18. DOI 10.1155/FPTA/2006/79075]
One of the conditions of submission of a paper for publication is that authors declare explicitly that their work is original and has not appeared in a publication elsewhere. The scientific community takes a very strong view on this matter and we apologize to readers of the journal that this was not detected during the submission process.
